**FAA FRIA** – The AMA has started the process to designate FAA-Recognized Identification Areas (FRIAs) or areas where models like ours can fly without the use of Remote Identification Equipment. We have already submitted the necessary documentation to obtain the appropriate designation. The flying boundaries will be:

- To the north Richmond Drive (SW 168th Street)
- To the east SW 197th Avenue
- To the south the palm tree line

- .To the west no boundary.

These were selected because beyond them there are residential and commercial properties over which we are not supposed to fly.
